

# DISCOVER THE WORLD OF CONTROL ENGINEERING!

## Join the 2024 Control Advent Calendar

### What is the Control Advent Calendar?

A unique and festive way to explore control engineering, open to everyone—no prior experience needed! Each day brings a new question that showcases how control engineering tackles real-world issues we face daily.

### What to Expect?

Every day from December 1 to December 24, a new question will be revealed on our website. The questions are accessible, fun, and easy to understand, perfect for students, enthusiasts, and curious minds worldwide!

### Who Can Participate?

Everyone! High school students, university attendees, or anyone curious to learn about this exciting field are welcome to join.

### Organizing Committee

Prof. Steffi Knorn

Prof. Damiano Varagnolo

Dr. Helem Sánchez

Dr. Damiano Rotondo

### Awards and Recognition

Earn certificates in categories like “Best High School Student” or “Best University Student”.

### Organized by European Universities

Supported by the International Federation of Automatic Control (IFAC).

### Sign up and win!

Challenge your problem-solving skills and celebrate control engineering in a fun and festive way!
